

MOLINA SYMPOSIUM ON THE HISTORY OF MEDICINE

New Histories of Medical Technology

March 1–April 6 • 5:00–6:30PM ET • Free & Open to the Public

ONLINE VIA CROWDCAST & ZOOM

Medical technologies have transformed the nature of doctor-patient relationships, definitions of health and disease, and the spaces and rhythms of clinical practice. Moving **beyond heroic diagnostic and therapeutic devices**, this conference spotlights how ordinary objects—thermometers, prosthetics, pagers—have shaped **medicine's engagement with technology**.

MARCH 1: Hardware/Software

GERARDO CON DIAZ

“Programming the Clinic: IBM and Hospital Administration”

JEREMY GREENE

“The Computer In the Clinic: Automating the Medical Interface”

MODERATED BY MAR HICKS

MARCH 9: Prosthetic Histories

CAROLINE LIEFFERS

“Colonialist Prosthetics”

COREEN MCGUIRE

“Breathlessness Technologies”

MODERATED BY BESS WILLIAMSON

MARCH 17: Everyday Technologies

JAIPREET VIRDI

“Fitting Hearing Aids”

DEIRDRE COOPER OWENS

“Speculum”

MODERATED BY LEE VINSEL

MARCH 25: Technologies in Translation

PROJIT MURKHARJI

“Injekshan Chikitsa: Small Technologies and Subaltern Therapeutics in 20th Century India”

TATIANA CHUDAKOVA

“Finding Resonance: Translating Electroacupuncture in Russia's Medical Diagnostic Technologies”

MODERATED BY YULIA FRUMER

MARCH 29: Visualization

JOSEPH NOVEMBER

“Digital Visualizations & the CAT Scan”

WEN SHEN

“The Adrenal Incidentaloma”

MODERATED BY THEODORE PORTER

APRIL 6: Instruments

ELAINE LEONG

“Materiality & Health Technologies in Early Modern Britain”

SHELLEY MCKELLAR

“Cutting as Cure”

MODERATED BY BENJAMIN GROSS
